

VOLTS GENERATOR PROGRAMME

Otago Cricket's High Performance coaching team is looking for the next generation of Volts, the next Brendon McCullum.

We had 68 young Otago cricketers at our first camp in July and we were excited by what we saw. BUT we realize that because numbers were limited many of our young cricketers did not have the chance to be involved.

So we have decided to run another set of camps in October, and priority will be given to those who missed out on the first camps.

Year 5 and 6 – Monday, October 10 and Tuesday, October 11, 9am till 4pm

Years 7, 8 and 9- Thursday, October 13, and Friday, October 14, 9am till 4pm

You will work alongside Otago Cricket high performance coaches and current players.
You will receive:

- **Specialist coaching in batting, pace bowling, spin bowling, wicketkeeping and fielding.**
- **Coaching around tactical awareness**
- **The chance to try things out in games and scenarios**
- **Video analysis of your technique**
- **A speedball radar reading on how fast you can bowl.**
- **The chance to gain an Otago Cricket Generator Scholarship which will entitle you to a further eight hours one-on-one free coaching in your specialist area(s), a mentor from the Volts team and the chance to be 13th man for a day at a Volts home game.**

You need to bring:

- **A willingness to work hard and learn**
- **A white cricket top**
- **Tracksuit pants and runners**
- **Your own cricket kits (bat, gloves)**
- **Lunch, snackfood and drink.**
- **A notebook (to record key things to work on)**

The total cost is \$125.00

Numbers have to be strictly limited because of net space so you need to get your name in quick.

To register please call Tim O'Sullivan on (03) 477-9056 or email tim@otagocricket.co.nz
